

Question 1 (2 marks)

Outline one impact of trade between countries in history.

**B** *I* ← → U  $x_e$   $x^2$     $\Omega$   $\Sigma$  Styles - 

Question 2 (4 marks)

**Explain** how **one** of the following can play an important role in creating wealth for **one** country of your choice.

Select **one** economic agent:

- Banks
- Consumers
- Governments
- Producers

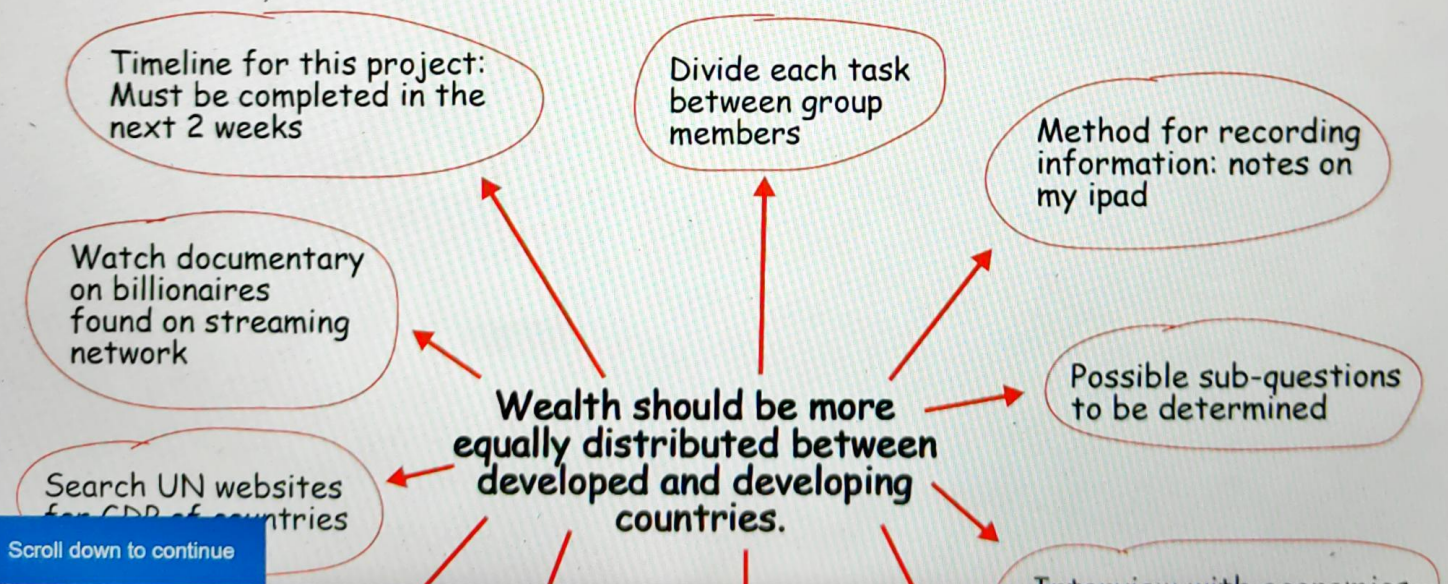

**B** **I** | ← → | U  $x_2$   $x^2$  |  $\frac{1}{2}$   $\frac{3}{2}$  |  $\Omega$   $\Sigma$  | Styles | 

Question 3 (8 marks)

As part of an Integrated Humanities school project, your teacher would like you to investigate a current problem related to globalization, based on the following argument:

“Wealth should be more equally distributed between developed and developing countries.”

A group of students in your class created an action plan to investigate the problem submitted by your teacher. Before going further into the investigation, you need to **evaluate** their action plan.

Scroll down to continue

**Wealth should be more equally distributed between developed and developing countries.**

Timeline for this project:  
Must be completed in the next 2 weeks

Divide each task between group members

Method for recording information: notes on my ipad

Watch documentary on billionaires found on streaming network

Possible sub-questions to be determined

Search UN websites for GDP of countries

**Wealth should be more equally distributed between developed and developing countries.**

Interview with economics teacher:  
1. What is wealth distribution?

Interview economic migrants that came here for better jobs and income

Visit public library and look for books explaining Globalization

Does my action plan provide enough details to investigate the current problem?

Find map of the world detailing Human Development Index for countries

Question 4 (12 marks)

Question 4a (2 marks)

Now you must plan your own investigation to address a current problem related to globalization, based on the argument:

“Wealth should be more equally distributed between developed and developing countries.”

**Formulate** a clear and focused research question to address the argument.

**B** *I* | ← → | U  $x_2$   $x^2$  |  $\frac{1}{z}$   $\frac{1}{z^2}$  |  $\Omega$   $\Sigma$  | Styles | 

Question 4b (4 marks)

**Justify** the usefulness of your research question to address the argument.

**B** *I* | ← → | U  $x_2$   $x^2$  |  $\frac{1}{2}$   $\frac{3}{4}$  |  $\Omega$   $\Sigma$  | Styles ▾ |

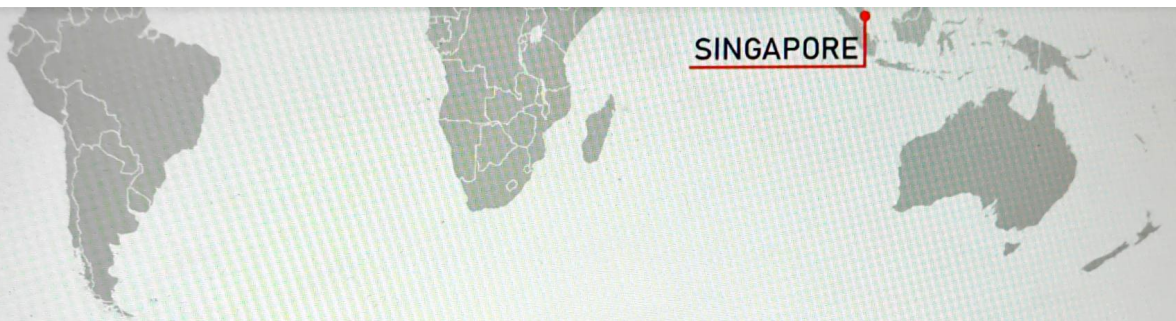

Question 4c (2 marks)

As part of your investigation, you discovered the source below.

## TEN MOST EXPENSIVE CITIES TO LIVE IN (SEPTEMBER 2020)

SINGAPORE

©

**Outline** whether this source would be useful **or** not useful for your investigation.

A rich text editor toolbar with the following icons from left to right: Bold (B), Italic (I), Undo (left arrow), Redo (right arrow), Underline (U), Subscript (x<sub>2</sub>), Superscript (x<sup>2</sup>), Bulleted List (≡), Numbered List (:=), Link (Ω), Unlink (Σ), a 'Styles' dropdown menu, and a mobile device icon.

Question 4d (1 mark)

State one primary source that would help you in your investigation.

**B** *I* | ← → | U  $x_2$   $x^2$  |  $\frac{1}{2}$   $\frac{3}{4}$  |  $\Omega$   $\Sigma$  | Styles ▾ |

Question 4e (3 marks)

**Describe** the information that the primary source you stated in part (d) would provide for your investigation.

**B** *I* ← → U  $x_2$   $x^e$   $\frac{1}{z}$   $z$   $\Omega$   $\Sigma$  Styles

Question 5 (18 marks)

Due to a growing population in a community of your choice, officials decided to build a new school. They have asked community members the following question:

“If you created a new school, what would it be like?”

You must give a convincing presentation to **explain** the benefits of your idea to the local officials. To prepare for your presentation, write a script that must address the following points:

- The importance of a good location
- Environmental sustainability
- Values and/or culture of the community

Write a title for your presentation here:

**B** *I* | ← → U  $x_2$   $x^2$  | ☰ ☷ |  $\Omega$   $\Sigma$  | Styles ▾ | 📄 ↕

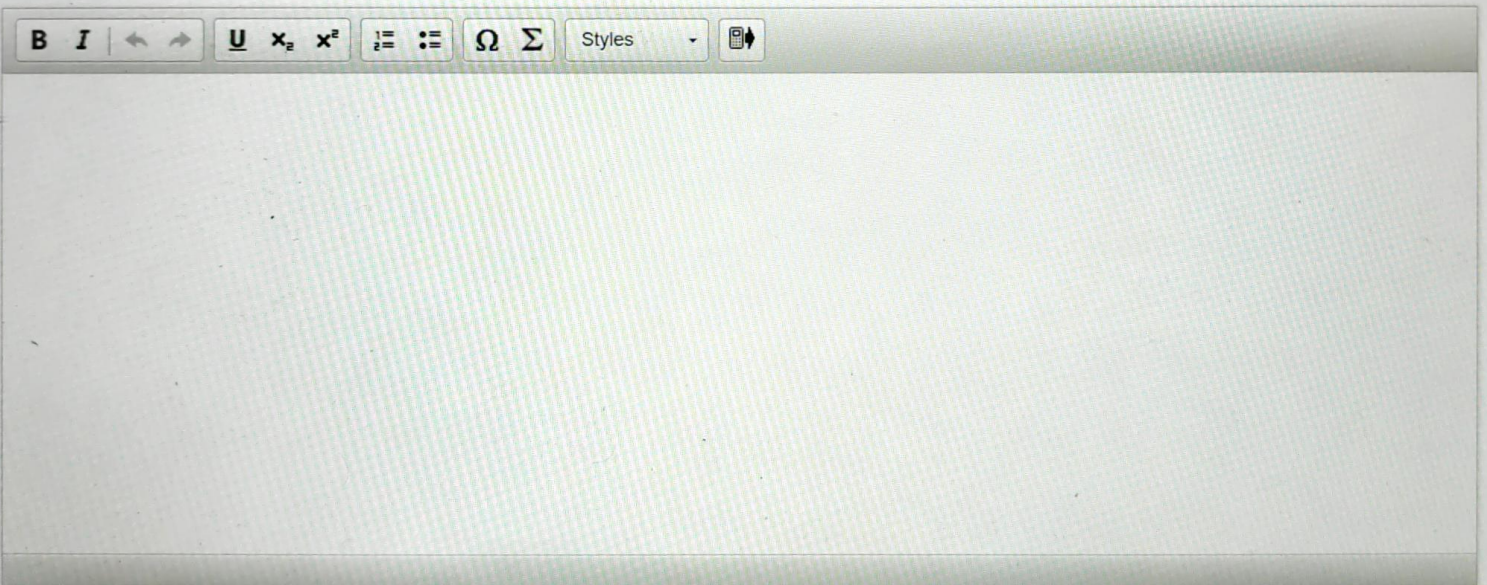

Write your presentation script here:

**B** *I* | ← → |    $x_2$   $x^2$  |  $\frac{1}{2}$   $\frac{3}{4}$  |  $\Omega$   $\Sigma$  | Styles ▾ | 📱↕

Write your presentation script here:

Write a summary/conclusion for your presentation here:

Write a summary/conclusion for your presentation here:

A rich text editor toolbar with the following icons from left to right: Bold (B), Italic (I), Undo (left arrow), Redo (right arrow), Underline (U), subscript (x<sub>2</sub>), superscript (x<sup>2</sup>), bulleted list (three horizontal lines with dots), numbered list (three horizontal lines with numbers), link (Ω), unlink (Σ), a dropdown menu labeled "Styles", and a mobile device icon.

Below the toolbar is a large, empty rectangular text area for writing the summary or conclusion.

Question 6 (6 marks)

Watch the video below and answer the questions that follow.

Source A

Source A transcript

The United Nations (UN) has set 17 sustainable development goals in order to achieve a better and more sustainable future for all by 2030. Supra-national organizations such as the UN and the World Health Organization (WHO) are working to support countries in providing universal health care. Universal health care means that health care is accessible to everyone for free as it is funded by the government.

There's still a lot of work to do. At least half of the world's population lack full coverage for essential health services. More than 800 million people spend over 10 percent of their family budgets on health services and close to 100 million people are pushed into extreme poverty because of health care expenses.

Countries are investing in their health care systems to allow everyone to benefit equally.

Universal health care systems will not only improve health and increase life expectancy, but also

The United Nations (UN) has set 17 sustainable development goals in order to achieve a better and more sustainable future for all by 2030. Supra-national organizations such as the UN and the World Health Organization (WHO) are working to support countries in providing universal health care. Universal health care means that health care is accessible to everyone for free as it is funded by the government.

There's still a lot of work to do. At least half of the world's population lack full coverage for essential health services. More than 800 million people spend over 10 percent of their family budgets on health services and close to 100 million people are pushed into extreme poverty because of health care expenses.

Countries are investing in their health care systems to allow everyone to benefit equally.

Universal health care systems will not only improve health and increase life expectancy, but also reduce poverty, create jobs and improve overall equality.

Universal health care should be a priority so everyone can access quality health care without facing financial hardship. If we work together, we can make health care for all a reality and ensure a safer, fairer and healthier world.

In terms of its origin, purpose, value and limitations, analyse the usefulness of the video to an MYP student studying equity in access to health care systems.

Question 6a<sub>1</sub> (1 mark)

**State** the origin of the video.

**B** **I** | ← →  x<sub>2</sub> x<sup>e</sup>   $\frac{1}{2}$   $\frac{3}{4}$   $\frac{5}{6}$   $\frac{7}{8}$   $\frac{9}{10}$   $\frac{11}{12}$   $\frac{13}{14}$   $\frac{15}{16}$   $\frac{17}{18}$ Question 7 (6 marks)

Look at **Source A** and **Source B** below and answer the question that follows.

Source A

Source A transcript

Source B

The United Nations (UN) has set 17 sustainable development goals in order to achieve a better and more sustainable future for all by 2030. Supra-national organizations such as the UN and the World Health Organization (WHO) are working to support countries in providing universal health care. Universal health care means that health care is accessible to everyone for free as it is funded by the government.

There's still a lot of work to do. At least half of the world's population lack full coverage for essential health services. More than 800 million people spend over 10 percent of their family budgets on health services and close to 100 million people are pushed into extreme poverty because of health care expenses.

Investing in their health care systems to allow everyone to benefit equally.

The United Nations (UN) has set 17 sustainable development goals in order to achieve a better and more sustainable future for all by 2030. Supra-national organizations such as the UN and the World Health Organization (WHO) are working to support countries in providing universal health care. Universal health care means that health care is accessible to everyone for free as it is funded by the government.

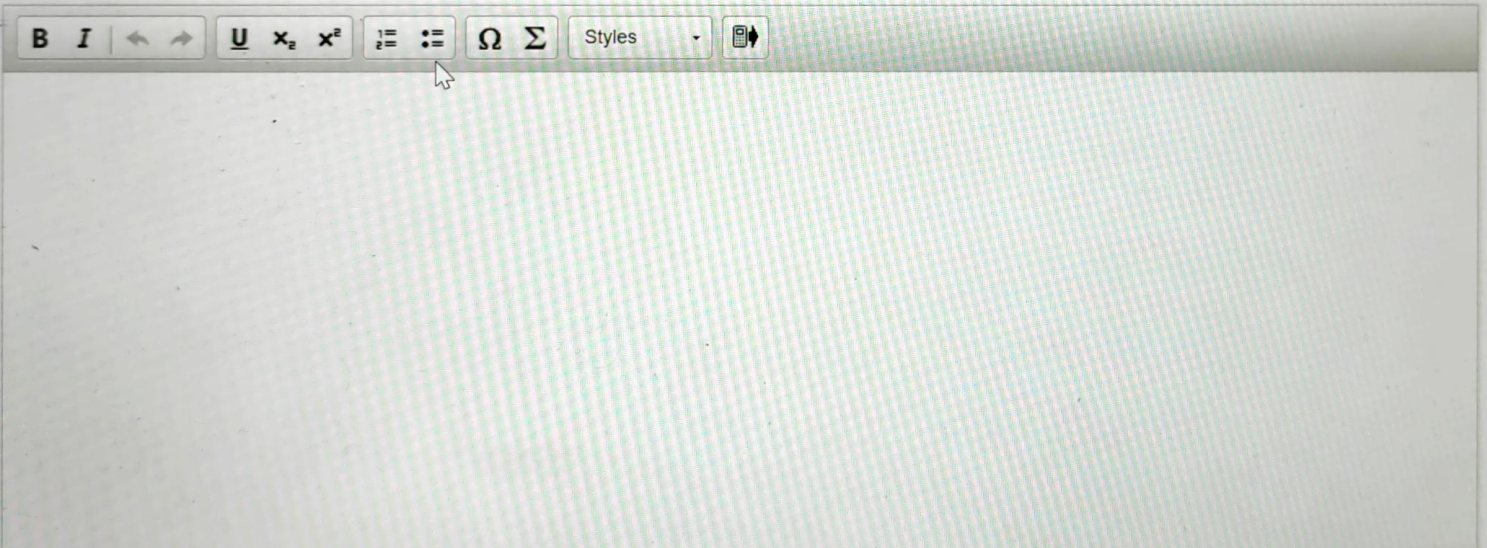

There's still a lot of work to do. At least half of the world's population lack full coverage for essential health services. More than 800 million people spend over 10 percent of their family budgets on health services and close to 100 million people are pushed into extreme poverty because of health care expenses.

Countries are investing in their health care systems to allow everyone to benefit equally.

Universal health care systems will not only improve health and increase life expectancy, but also reduce poverty, create jobs and improve overall equality.

Universal health care should be a priority so everyone can access quality health care without facing financial hardship. If we work together, we can make health care for all a reality and ensure a safer, fairer and healthier world.

With specific references to the sources, **compare and contrast Source A** and **Source B** in terms of their views on universal health care.

The image shows a rich text editor toolbar with the following elements from left to right: Bold (B), Italic (I), Undo (left arrow), Redo (right arrow), Underline (U), Text Color (x), Background Color (x<sup>E</sup>), Bulleted List (≡), Numbered List (≡), Link (Ω), and Unlink (Σ). A 'Styles' dropdown menu and a mobile device icon are also present. A mouse cursor is hovering over the Bulleted List icon.

Question 8 (24 marks)

In this task, you have reflected on how universal health care can impact upon fairness. Now you must consider fairness from another perspective and apply it in a different context.

Write a well-structured essay to answer the following question.

**To what extent** should leaders prioritize fairness?

In your essay, you **must**:

- refer to at least one type of leader (for example, superpowers, supra-national organizations or political leaders such as an elected official)
- provide examples that can be national or global to support your argument
- avoid using examples related to universal health care systems in your response
- consider different perspectives.
